The ABCs of Oregon Agriculture

A large outline map of Oregon is shown. Inside the map, each letter of the alphabet (A through Z) is placed in a specific location, followed by a horizontal line for writing an answer. The letters are arranged as follows:

- A: Top right
- B: Middle right
- C: Middle left
- D: Bottom middle
- E: Top right
- F: Bottom left
- G: Middle left
- H: Middle left
- I: Middle right
- J: Bottom middle
- K: Middle left
- L: Middle right
- M: Middle left
- N: Bottom right
- O: Bottom left
- P: Middle left
- Q: Middle right
- R: Bottom middle
- S: Middle left
- T: Middle left
- U: Middle right
- V: Middle right
- W: Middle right
- X: Middle left
- Y: Middle left
- Z: Bottom left

Did You Know?

Oregon farmers and ranchers grow and produce more than 220 different commodities. In fact, Oregon is in the top 3 states for most diversity of crops, climates, topography, and agriculture variety.

Directions:

Write the name of an Oregon agricultural commodity or products made from the commodities for each letter of the alphabet. Write your answer on the line next to each letter on the map. Use our online Interactive Grown in Oregon map for a list of several crops grown in Oregon. There is more than one correct answer for some letters.

Example 1: In Oregon A is for: Apples, Alfalfa, Asparagus, Artichokes, Apricots, Arborvitae, Alpacas, and Angus.

Example 2: Think of *products* made from commodities. For example, potatoes are used to make French fries, Mashed potatoes, and Baked potatoes.

Alphabetical Listing of Commodities Grown in Oregon

Alfalfa Seed	Cucumbers	Huckleberries	Peppers	Steelhead
